Profile

I am a Computer Engineering diploma student seeking OJT training in a Company, with skills in web development, basic networking, computer servicing, and office tasks such as Excel, graphic design, and website development. As an honor graduate and I am professional, motivated, and eager to learn.

PERSONAL EXPERIENCE

ALLIANCE SOFTWARE: LOW CODE TRAINING
Aug - Dec 2025

Completed 5 months of training while contributing to the development of a desktop **E-commerce Store** application using **Power Apps**, **Power Automate**, and **Power BI**. Designed intuitive user interfaces as a Front-End Developer and performed functional testing as a **Technical Leader**, ensuring smooth workflows, accurate data, and overall system reliability prior to deployment.
